

MAGSMEN

ANNUAL ADVISORY PROGRAMME

We sit with you for the full year. Every major brand, legal, and business decision passes through us first.

What Magsmen Does

We are brand consultants. That is one part of our work. The other part is that we also work as long-term advisors to founders and companies that want a senior strategic mind with them across the year.

These are two different products. Most people confuse them. Before you choose anything, it helps to see them side by side.

	CONSULTING	ADVISORY
When you call us	When you have a specific problem and need it fixed once.	When you want a strategic mind with you for the full year.
What we do	We come in, study the business, fix the problem, hand over the solution, leave.	We stay with you. We review every major decision before you make it.
How long it lasts	60 to 180 days, depending on the scope.	12 months. Renewable every year.
What you receive	A complete strategy document. Positioning, brand framework, action plan.	Ongoing reviews, regular meetings, written reports through the year, and access to call us when a decision is in front of you.
Real example	Your brand is not growing. We come in for 90 days, find the problem, give you the fix.	You signed up after consulting. Now every contract, every new product, every pricing change goes through us first.

	CONSULTING	ADVISORY
What it costs	INR 3,00,000 to INR 15,00,000 per project.	INR 5,00,000 to INR 10,00,000 per year.
Who needs this	A founder with a specific issue to solve right now.	A founder who has understood that one wrong decision costs more than the advisory fee.

Some founders start with consulting and move to advisory after the project ends. Some come straight to advisory because their year already has too many big decisions to handle alone. Both paths are correct. The wrong choice is to do nothing and hope the year goes well.

Why Advisory Exists

Most founders do not lose because they had bad ideas. They lose because no one was sitting across the table when the wrong decision was being made.

A pricing change made on instinct. A contract signed without proper review. A trademark assumed to be safe when it was not. A new product launched without thinking through what it does to the brand. A WhatsApp forward turning into a regulatory notice. A founder name growing faster than the company that needed to protect it.

Each of these decisions, taken alone, looks small. Stacked across twelve months, they decide whether your business becomes a brand or stays a business.

Advisory is the answer to this. For one full year, you have us in the room. Not in person every day, but available across the year through scheduled meetings, written reviews, and direct phone access when a decision is in front of you. We tell you what we see. We disagree with you when we need to. We protect you from the mistakes that founders only learn about after they have made them.

Consulting fixes a problem you already have. Advisory prevents the problems you have not seen yet.

Who Should Take Advisory

Advisory is not for every founder. It is for the ones who have understood three things.

- , One ,that the brand they are building deserves a senior outside view across the year, not just at the start.
- , Two ,that the cost of one wrong decision in the next twelve months is more than the advisory fee.
- , Three ,that they want a partner who tells them the truth, not someone who agrees with them to keep the relationship comfortable.

If you are running one brand or a group of companies, if you are growing fast and the decisions are getting harder, if you have already worked with a consultant once and now you want continuity, this is the right time to take advisory.

If you want someone who only agrees with you, this is the wrong programme.

The Three Levels

Advisory comes in three levels. Each one covers a different scope of decision-making. The right level for you depends on what kind of decisions you are making this year.

LEVEL 1 ,IF YOUR DECISIONS ARE ABOUT BRAND

If your year is mostly about brand direction, message, positioning, and identity, Level 1 covers it. You get our brand thinking with you across the year.

LEVEL 2 ,IF YOUR DECISIONS INVOLVE LEGAL EXPOSURE

If your year includes contracts to sign, trademarks to protect, IP to register, partnerships to negotiate, or anything where a wrong move creates legal risk, Level 2 covers brand and legal together.

LEVEL 3 ,IF YOUR DECISIONS SPAN BRAND, LEGAL, AND BUSINESS

If your year includes pricing changes, expansion into new categories or cities, new product launches, partnership deals, founder personal-brand decisions, or anything that touches all three at once, Level 3 covers everything together.

Read all three pages below before you decide. The wrong level is not a level that is too high. The wrong level is one step lower than what your year actually needs.

LEVEL 1 ,BRAND ADVISORY

INR 5,00,000 per year

For brands that want our thinking with them, but do not have legal or business decisions to handle this year.

WHAT WE DO FOR YOU

We become the senior brand mind that sits outside your company and watches your brand across the year. Every six weeks we meet you, review what is happening in the brand, and tell you what to fix before it grows into a problem.

Every three months we send you a written brand health report. We tell you where your brand is consistent, where it is drifting, and where it is losing trust without you realising. At the end of the year, we give you a written Brand Direction Document showing where the brand stands today and where the next year should take it.

Between meetings, you can message us on WhatsApp or email. If you have a brand decision in front of you and need a quick view, we get back to you within two working days. The scope here is brand only ,not contracts, not legal, not business model questions.

REAL EXAMPLES OF WHAT WE HANDLE AT THIS LEVEL

- , You are about to launch a new product. Should it sit under your main brand or get a new name?
- , Your social media has gone in one direction, your packaging is going in another, and your team is confused. We fix the alignment.
- , You are setting up a new campaign with an agency. You want us to review the brief before you give it.
- , You have a group of three companies. You want to know if they should look like one family or three separate brands.
- , Your brand is growing but the trust is not. We diagnose where the gap is.

WHO THIS IS RIGHT FOR

A single brand or a small group of companies. Operations are stable. Legal is clean. The business is running. The question for the year is brand growth, brand clarity, and brand discipline. If your year does not have major contracts, trademarks, or business expansion decisions, this level is enough.

WHAT THIS LEVEL DOES NOT COVER

It does not cover legal review, contract review, business model questions, or expansion decisions. If your year has these, do not take this level. You will be paying for a conversation that cannot contain what you need to discuss.

LEVEL 2 ,BRAND + LEGAL ADVISORY

INR 7,50,000 per year

For growing brands where contracts, trademarks, and IP need a senior eye alongside the brand.

WHAT WE DO FOR YOU

Everything in Level 1. Plus a second mind in the room every time a decision touches brand and legal together.

In India, most brand problems eventually become legal problems. Someone copies your name. A vendor sues over a contract clause you did not notice. A claim you made on packaging triggers a notice. Someone files a trademark for your brand before you do. These are not theoretical risks. They happen every week to founders who did not have a senior mind protecting them.

At Level 2, we add legal coordination on top of brand work. We meet you every month. Twice a year we do a deep brand health review. Once a year we run a full trademark and IP audit through our empanelled trademark attorney. Every contract that comes to your desk, you can send to us. We review it from a brand and commercial protection lens, flag what is risky, and coordinate the formal legal opinion through our partner attorney.

If a brand crisis hits during the year ,a viral negative review, a regulatory notice, an IP dispute, a defamation issue ,we activate the first 72 hours of response. We tell you what to say, what not to say, and which legal partner to bring in immediately.

REAL EXAMPLES OF WHAT WE HANDLE AT THIS LEVEL

- , You signed a distribution agreement two years ago. You realise now that the partner has rights over your brand name in their state. We help unwind it.
- , Someone has registered a trademark with your name in a different class. We see it early, file the opposition, and stop them.
- , Your packaging has a health claim that crosses a regulatory line. We catch it before the FSSAI notice arrives.
- , You are signing a franchise agreement. We review the brand-protection clauses before you put your name on it.
- , A competitor is misusing your tagline online. We coordinate the takedown notice and the legal follow-up.
- , You are about to enter into an investor term sheet. We review what it does to your brand control before signing.

WHO THIS IS RIGHT FOR

A growing brand where the year ahead has at least one or two contracts to sign, trademarks to protect, partnerships to negotiate, or category claims to make. If even one such decision is mishandled, the cost will be more than this entire year of advisory. That is what makes this level pay for itself.

IMPORTANT TO UNDERSTAND

Magsmen is not a law firm. We do brand strategy and legal coordination. The actual legal opinions, filings, and court matters are handled by our empanelled trademark attorneys and corporate lawyers. We bring them in when needed and we work alongside them. You contract them directly, we coordinate the work. This protects you and gives you the right specialist for each kind of legal task.

LEVEL 3 ,FULL BUSINESS ADVISORY

INR 10,00,000 per year

For founders where brand, legal, and business decisions are one connected conversation through the year.

WHAT WE DO FOR YOU

Everything in Level 2. Plus business advisory across the year. Plus direct founder-level access to Sandeep N for two dedicated meetings in the year and unlimited involvement when a major decision needs the most senior view.

This is the level for founders who have understood that brand, legal, and business are not three separate things. They are one decision being looked at from three different angles. When the angles disagree, the founder loses money. When they agree, the brand grows faster.

We meet you every two weeks. The agenda is whatever is on your mind that fortnight. We move between brand, legal, and business as the discussion needs. Twice a year, we do a full business model review. We look at where the revenue is concentrated, where margins are leaking, what the next growth point should be, and what the one decision is that will shift the most. Twice a year, we do a brand and legal exposure audit. Quarterly, we run an IP and trademark review.

We coordinate with our empanelled CA partners on MSME compliance, ROC filings, GST positioning, banking presentations, and government scheme eligibility. We do not file these for you. We make sure the right professional is doing the right thing at the right time.

If a crisis hits, brand, legal, or business, we are your first call. We coordinate the response across all three. Unlimited support for the full year.

REAL EXAMPLES OF WHAT WE HANDLE AT THIS LEVEL

- , You are thinking of expanding from Andhra to Karnataka. We review whether the brand will stretch, whether the legal structure will travel, and whether the business model will hold.
- , You want to raise your prices by 20 percent. We test it for brand acceptance, contract renegotiation impact, and margin maths before you announce.
- , You are evaluating a partnership with a larger company. We review the brand impact, the legal exposure, and the business risk together.
- , Your founder personal brand is growing. You want to know how to protect it separately from the company brand. We coordinate the legal structure with our attorney.
- , You are about to take a working capital loan. We help you build the brand and business presentation that gets the right rate.
- , You want to start a new vertical under the same parent group. We do the full brand-legal-business audit before you commit capital.
- , Your competitor has launched a copycat. We coordinate the brand response, the legal response, and the business response in one war room.

WHO THIS IS RIGHT FOR

A founder whose year ahead has more than three of these on the calendar ,pricing change, geographic expansion, new product launch, partnership deal, founder identity shift, group restructuring, fundraise preparation, or category expansion. If even three of these are coming, this is the only level that can hold all the conversations. The other two will leave you under-served.

This level is also right for founders who are not in any one big decision moment, but who have crossed a stage in life where they want a senior strategic partner with them through the year because the cost of poor decisions at their scale now exceeds the cost of the advisory.

Quick Reference ,All Three Levels

This is the summary table. Read the level pages above first. The table is for reference, not for choosing.

	LEVEL 1 BRAND	LEVEL 2 BRAND + LEGAL	LEVEL 3 FULL BUSINESS
Annual Fee	INR 5 Lakh	INR 7.5 Lakh	INR 10 Lakh
What we cover	Brand	Brand + Legal	Brand + Legal + Business
How often we meet	Once every 6 weeks	Once a month	Once every 2 weeks
Brand health review	Every 3 months	Every 3 months + deep review twice	Deep review every 3 months
When you message us, we reply within	2 working days	1 working day	Same working day
Trademark and IP review	Not included	Yes, once a year	Yes, every 3 months
Contract review before you sign	Not included	Yes	Yes, including vendor and partner deals
Crisis support if something goes wrong	Not included	Yes, once a year	Unlimited through the year
Business model review	Not included	Not included	Yes, twice a year
MSME compliance coordination	Not included	Not included	Yes, with our CA partners
Direct meetings with Sandeep N	Through scheduled meetings	Plus one founder review meeting	Plus two founder strategy meetings

How to Decide Which Level

Forget the prices for one minute. Take a clean piece of paper. Write down the major decisions you expect to make in the next twelve months. Not the small ones. The decisions where, if you get them wrong, the cost will be felt for two or three years.

Now look at the list.

- , If every decision is about brand ,message, positioning, identity, communication, group brand architecture ,Level 1 fits.
- , If even two decisions involve contracts, trademarks, IP, partnerships, or anything legal ,Level 2 is the floor. Anything below is a false saving.
- , If even three decisions touch brand, legal, and business at the same time ,Level 3 is the only one that holds the year.

The mistake founders make is they pick the level based on what feels comfortable to spend, not based on what their year actually requires. That is when advisory becomes expensive ,not because the fee is high, but because the level was wrong for the year.

How It Starts

Once you sign, three things happen in the first ten days.

STEP 1 ,THE YEAR SETUP MEETING

Within seven working days of signing, we sit with you for two to three hours. We map your year. We list the decisions you expect to face. We document the priorities. We set the meeting calendar for the full twelve months. This meeting is the foundation of the year.

STEP 2 ,BASELINE BRAND HEALTH

In the first month, we do a written baseline of your brand today. This is the reference point for everything we measure across the year. Without this baseline, advisory becomes opinion. With this baseline, advisory becomes evidence.

STEP 3 ,EMPANELLED PARTNER INTRODUCTIONS

If you are at Level 2 or Level 3, we introduce you to our empanelled trademark attorney, corporate lawyer, and CA partners. You contract them directly when needed. We coordinate the work.

Payment is sixty percent on signing and forty percent at the six-month mark. The full programme is governed by the Magsmen Consulting Engagement Agreement and a Non-Disclosure Agreement. Both are signed before we start.

Common Questions

IS THIS THE SAME AS HAVING A CONSULTANT ON RETAINER?

No. A retainer usually means you pay every month for a fixed number of hours. Advisory is different. We are not selling you hours. We are giving you a senior strategic seat at your decision-making table for the full year. You pay annually because the relationship works on continuity, not on hour counting.

WHAT IF MY DECISIONS IN THE YEAR CHANGE?

They will. That is normal. We adjust the focus of meetings as your year shifts. The level you choose only sets the scope. Within that scope, we move with you.

CAN I MOVE FROM LEVEL 1 TO LEVEL 2 IN THE MIDDLE OF THE YEAR?

Yes. You pay the difference and the additional scope activates immediately. You cannot move down a level in the middle of the year, because the year setup is already done at the higher level.

DO YOU HANDLE THE LEGAL FILINGS YOURSELF?

No. We are brand consultants and strategic advisors. The actual legal filings, court matters, and registrations are handled by our empanelled trademark attorneys and corporate lawyers. We bring them in when needed and coordinate the work end to end.

WHAT HAPPENS IF I NEED TO CALL YOU FOR AN EMERGENCY AT 9 PM?

At Level 1, we respond the next working day. At Level 2, within twenty-four hours. At Level 3, the same working day. For genuine crises at Level 3, you have direct access including weekends. We do not promise instant access at every level because that is not honest. We promise the response time we can deliver consistently across the year.

IS GST EXTRA?

Yes. All fees mentioned are excluding GST. GST is charged at applicable rates.

DO YOU RENEW AUTOMATICALLY?

No. We discuss renewal in the eleventh month based on what your next year looks like. Some founders renew at the same level. Some move up. Some take a project instead of advisory for a year. The decision is yours and we make it together.

A Note from Sandeep N

In every market I have worked in ,Andhra, Telangana, Karnataka, Maharashtra, and beyond ,I have seen the same pattern. Founders build something real, something that works, and then they hit a stage where they need a different kind of help. Not someone who runs their business. Not someone who handles their accounts. Not someone who designs their logo.

They need someone who sees their brand and their business from the outside, with no operational ego, with no agenda except to tell them the truth, and with the experience to know which decisions matter and which ones are noise.

That is what Magsmen Annual Advisory is. It is the seat I have wanted founders to have for years ,a senior strategic partner across the full year. Not a consultant who comes and goes. Not a marketer who sells you ideas you do not need. A partner who is paid to think clearly, speak honestly, and stay with you across the decisions that shape the next phase of your business.

If this resonates, we should talk. The first conversation is free. After that, we both decide if we are right for each other.

,Sandeep N

Founder, Magsmen Brand Consultants

How to Begin

Reply to this document with the level you want to discuss. We will set up a meeting at your office or over a video call within seven working days.

If you are not yet ready to choose a level, ask for the free first conversation. We sit together for one hour, we read your year, and we recommend the right level for you. No commitment. No follow-up sales call.
